

Telling My Story

Lesson Plan—Adults/Youth

Supplies:

- Handout: Telling My Story

Procedure:

- **Talk about this:** Your story about your relationship with Jesus is powerful. People can debate the validity of scripture or the existence of God, but often they will listen to your personal story. So it's important to be able to tell your story well and in a way people understand.
- **Distribute the handout:** Telling My Story.

Encourage participants to write their stories at home. And invite participants to bring their completed stories back to class to share.
